

Grant Application Instructions

I. Eligibility

Established by the American entertainment software industry in 2000, the ESA Foundation (ESAF) creates positive social impact in our communities. ESAF has raised millions of dollars to support geographically-diverse projects that leverage entertainment software and technology to create meaningful educational opportunities.

We support initiatives and programs that benefit American boys and girls of all races and religions. ESAF does not support programs or projects that discriminate on the basis of gender, race, color, religion or sexual orientation.

Because ESAF can only support a limited number of projects per year, organizations making a grant request must meet the following criteria:

1. Be tax-exempt under Section 501(c)(3) of the Internal Revenue Code or be a governmental unit exempt under Section 115 and described in Section 170(c)(1) of the Internal Revenue Code.
2. Seek funding for a specific project or program that is or will be implemented or available nation-wide, or at a minimum in two or more states in the United States.
3. Serve American youth ages 7-18.
4. Provide programs and services that utilize technology and/or computer and video games to educate America's youth and young adults.

Limitations: In general, ESAF does not accept applications for endowment, operating support, benefit and event fundraisers, annual fund appeals, youth sports teams, religious organizations for religious purposes, political organizations or campaigns, labor groups, indirect costs, research or from fiscal agents. Grants are not made to individuals or for projects outside the United States of America.

ESAF reserves the right to revise the grant criteria and/or process at any time.

II. Funding Cycle & Award Range

ESAF has one grant cycle per calendar year. Grant applications must be received by **May 28** for projects that will be implemented during the following calendar year. Proposals received after May 28 will be considered for the subsequent funding cycle. Applications are accepted year round and are reviewed annually in June/July. Final grant decisions are made in August. First time awardees can receive grants up to \$50,000.

III. How to Apply for Funding

Please submit the application on your organization's letterhead using the provided cover page and format outlined in Attachment A. All applications must be typed and double-spaced. Please use the headings provided in Attachment A and answer all questions in the order listed.

Please do not send any materials other than those specified in the attachment section at this time.

The following guidelines are used in evaluating every grant application:

- Alignment with ESAF's specified areas of interest.
- Evidence that the program or project responds to a valid need and is superior to other competing programs or projects.
- Evidence of previous program or project success or likely success in the future.
- Evidence of program or project accountability.

You will receive notice via email, phone or fax:

- Upon receipt of your application within five business days.
- On the status of your application in July/August.

Please do not call to inquire about your status. We will contact you if additional information is necessary.

VI. Reports

ESAF requires a minimum of two status reports (interim and final) per year from your organization once your grant is approved.

Reports should be in MS Word or PDF file format and submitted via email (preferred) to Jenny Lai at esafinfo@theESA.com or the mailing address above. Report due dates will be outlined in a "letter of agreement" from ESAF upon notification of approval.

Reports must include:

- Narrative account of what was accomplished, including a description of progress made toward achieving the goals of the grant.
- Obstacles and unexpected results.
- Detailed line-item financial accounting of how the grant funds were spent.
- Statistical support as to the effectiveness of program.
- Next steps and expected outcomes.
- Other information as specified by ESAF.

Future requests for funding are not automatically granted, and reports are an important factor in future funding decisions.
